

GSHPA on Wheels

Girl Scouts in the Heart of Pennsylvania (GSHPA) is going mobile through GSHPA on Wheels, an opportunity for Service Units and troops to bring GSHPA programming directly to their girls!

GSHPA on Wheels brings in-house programming on Saturdays to girls across our 30-county footprint. For a small fee, a GSHPA staff member will meet you at the location of your choice and provide all the necessary materials to provide programming. From your troop's meeting location, to a GSHPA camp property, we're ready to meet your girls where they are!

How it works.

Choose your Saturday or Sunday

When you request GSHPA on Wheels, you will indicate three Saturdays or Sundays that work for you. We will always try to accommodate your first choice depending on staff/volunteer availability.

Choose your time and location.

A minimum visit is two hours and a maximum visit is six hours. Within that time frame, we can run multiple sessions of the same program as a station at your event, or multiple programs for the same group of girls. Groups of 25 or more girls need to be split into separate sessions.

Identify what Girl Scout levels will be participating.

We can work with one level in a day, or all six! Groups with more than three Girl Scout levels may need to be split into separate sessions.

Tell us how many girls will be participating.

We can accommodate groups from 15-125 girls. Payment is based on how many girls are in attendance, not how many programs are provided.

- \$60 for 15 - 25 girls
- \$80 for 26 - 50 girls
- \$100 for 51 - 75 girls
- \$120 for 75 - 100 girls
- \$140 for 100 - 125 girls

Per Girl Price ranges from roughly \$1.50 – \$4

GSHPA requires a minimum of 15 participants for mobile programs. If your troop has less than the required amount we recommend coordinating with another troop in your service unit to reach the required participation.

Choose your 60-minute experience.

GSHPA offers a variety of 8 engaging program options – keep scrolling to learn more!

3D Design Challenge

Put on your thinking cap and figure out how you can create difficult your own 3D world! Then, make the world a better place as biomedical engineering helps people and animals! **Level:**

Junior – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Escape Room

Explore the world of secret codes and detectives, then test your skills through a series of super sleuth activities! **Level:** Daisy – Ambassador

Property Requirements: None

Other Requirements: Indoor Space recommended for inclement weather.

Robotics

Design and create your own robot prototype while learning what makes a robot and why they are important to our future! **Level:** Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Master Builder Engineering

Become a master builder! Learn about the steps it takes to design and build structures you see every day. **Level:** Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Catapulting into Fun

Practice the basic principles around catapults, as well as force, precision, and accuracy. **Level:**

Daisy – Ambassador

Property Requirements: None

Other Requirements: Must include indoor space.

Math in Nature

This experience aligns with the new badges for each Girl Scout level. These activities get girls outdoors to explore and conserve the natural world as they learn math concepts. **Level:** Daisy – Junior

Property Requirements: None

Other Requirements: Indoor space is recommended for inclement weather.

Leave No Trace

Learn and practice the seven principles of Leave No Trace. Girls will continue to be good stewards of the environment and learn how to protect it.

Level: Daisy – Ambassador

Property Requirements: None

Other Requirements: Indoor space is recommended for inclement weather.

Endangered Animals

Understand the importance of biodiversity in an ecosystem! Learn why plants and animals become endangered and what you can do to help! **Level:** Daisy – Cadette

Property Requirements: None

Other Requirements: Indoor space is recommended for inclement weather.
